Your Home Heating Guide

A practical guide to maintaining your heating system, reducing energy costs and avoiding unexpected heating problems throughout the year.

METRO PLUMB

THE NATION'S LOCAL PLUMBER

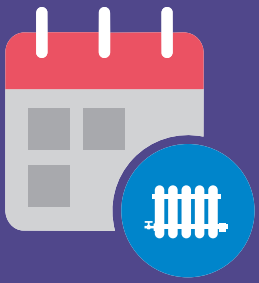
Home Heating Calendar

Boiler Service

EVERY YEAR

An annual boiler service checks key components, cleans essential parts, tests safety controls, and ensures your boiler is running efficiently.

- ✔ Improves Reliability
- ✔ Extends the boiler's life by up to 10 years
- ✔ Improve fuel efficiency by up to 15%



Bleeding Radiators

EVERY AUTUMN

Bleeding your radiators releases trapped air to improve heat circulation and help rooms stay warm.

- ✔ Improves system efficiency by up to 25%
- ✔ Rooms warm up faster

Powerflushing

EVERY 5 YEARS

Sludge build-up can reduce heating efficiency and damage your system. Powerflushing removes this sludge to improve performance and extend system life.

- ✔ Improves heating efficient
- ✔ Reduces energy bills
- ✔ Reduces boiler breakdowns

Top Energy Saving Heating Tips

- Book your service before winter hits
- Leave space around radiators for better heat circulation
- Turn down your main thermostat by 1°C
- Lower your combi boiler's flow temperature to 60°C
- Keep your boiler area clear and well ventilated
- Test your heating system after long periods of inactivity

Signs Your Heating System Needs Attention

- Cold spots on radiators
- Noisy boilers or pipework
- Frequent pressure loss
- Rising energy bills
- Slow heating performance
- Radiators requiring frequent bleeding

From the first contact, I was kept updated. I received a call on the day as promised, and the engineer arrived on time. She was very knowledgeable and gave me some useful tips while fitting my boiler. She cleaned up as she worked. I would recommend Metro Plumb - thanks to them, I'm in a warm home again.

Hayley

The plumber was very thorough. He checked all the outlets and explained what he was doing.
He reassured me that everything was working well.

Laura

I highly recommend Metro Plumb. The assigned plumbers are very professional. They explained the causes of the issue and the repair required. In addition, they were polite, friendly and helpful.

Michael

I had my annual boiler service completed last week, and the engineer was helpful, courteous and efficient. Thank you.

Claire
